When our students know where they're going ... we all advance

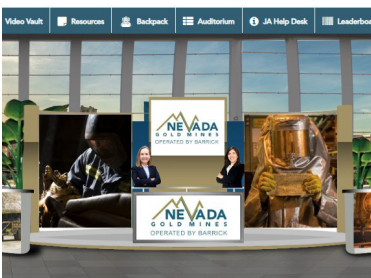

JA Inspire Nevada is a statewide virtual and in person career fair targeted towards students aged 13-25. Students will enter the career fair after completing a career assessment, learning about career clusters and uncovering where they might excel in the working world. This opportunity is just in time to select high school courses that fit with their new found career interests.

For businesses, this is a chance to build your future workforce.
